

PEAKE Technology Partners Named Finalist for 2026 MSP 501 Digital Innovator of the Year

Healthcare-only managed service provider earns finalist recognition for the PEAKE AI Lab and ranks #133 on the 2026 Channel Futures MSP 501, climbing 213 spots in its second consecutive year on the global list

Bowie, MD (July 22, 2026) — PEAKE Technology Partners, an Omega Systems company and healthcare-only managed service provider (MSP) headquartered in Bowie, Maryland, has been named a finalist for the 2026 MSP 501 Digital Innovator of the Year award, recognizing the work of the [PEAKE AI Lab](#) in bringing practical, secure AI adoption to physician practices. The finalist selection accompanies PEAKE's ranking of #133 on the 2026 Channel Futures MSP 501, the technology industry's most comprehensive global ranking of managed service providers.

Key facts

- PEAKE Technology Partners is a finalist for the 2026 MSP 501 Digital Innovator of the Year award; winners will be announced September 30, 2026.
- The finalist recognition showcases the PEAKE AI Lab, which helps physician practices adopt AI and automation in ways that protect ePHI and support HIPAA compliance.
- In its second consecutive year on the list, PEAKE ranked #133 of 501 companies on the 2026 Channel Futures MSP 501, up 213 positions from #346 in 2025
- PEAKE is a healthcare-first MSP, serving independent and multi-location physician practices across the Mid-Atlantic and North Carolina.
- Part of Omega Systems (itself ranked #49 on the 2026 MSP 501) since October 2025, PEAKE was founded in 2013 by CEO Chris Knotts

What is the MSP 501 Digital Innovator of the Year award?

The Digital Innovator of the Year is an MSP 501 Special Award from Channel Futures recognizing managed service providers advancing practical innovation for their clients. PEAKE's finalist selection recognizes the PEAKE AI Lab, the company's initiative for evaluating, securing, and implementing AI tools inside real practice environments, where every deployment must protect ePHI and support HIPAA compliance. Winners will be revealed at the MSP 501 Awards Gala on September 30, 2026.

*"The Digital Innovator finalist recognition reflects what the PEAKE AI Lab was built to do: bring practical, safe AI and automation into real practice environments," said **Chris Knotts, Founder and CEO of PEAKE Technology Partners**. "And climbing more than 200 spots on the MSP 501 in a year says less about us than it does about the decision we made to focus our efforts on serving healthcare – and just as much about what's been possible since joining Omega Systems last year, with the resources to scale work like the AI Lab further and faster. When you build every service around physician practices, the practices notice, and so does the industry."*

What is the Channel Futures MSP 501?

The Channel Futures MSP 501 is an annual global ranking of the top 501 managed service providers, now in its 19th year. Rankings are determined by a quantitative methodology evaluating long-term financial health, recurring revenue strength, and operational efficiency. According to Channel Futures, the 501 companies on the 2026 list averaged more than \$32 million in revenue, 10% revenue growth, and recurring revenue representing nearly 60% of total revenue.

Why did PEAKE rank in the top 27% of MSPs worldwide?

PEAKE attributes its rise to healthcare specialization. Since 2013, PEAKE has served only healthcare organizations, and every PEAKE technician has healthcare industry experience. Its services, including SupportMD, SecureMD, PEAKE Voice, and the PEAKE AI Lab, are built around one operating principle: IT failure in a clinical environment is not an inconvenience; it is a patient care problem. Since joining Omega Systems in 2025, PEAKE has retained that exclusive healthcare focus while gaining access to Omega's broader security operations and compliance infrastructure.

PEAKE holds ISO 9001 (IT Operations) and ISO 27001 (Cybersecurity) certifications, offers a 99.9% uptime guarantee, and supports major EHR platforms including Epic, Athenahealth, NextGen, Veradigm, eClinicalWorks, Greenway Health, and Mod Med.

About PEAKE Technology Partners

PEAKE Technology Partners is a healthcare-focused managed services provider that has redefined what it means to be a technology partner in healthcare. Founded in 2013 by CEO Chris Knotts with a clear vision to move beyond traditional IT support, PEAKE specializes in serving multi-site healthcare organizations with complex technology needs. In October 2025, PEAKE was acquired by Omega Systems, extending its healthcare specialization across Omega's broader portfolio of managed IT, cybersecurity, and compliance solutions for regulated industries.
